

NINETEENTH YEAR, NO. 3

GLEICHEN, ALBERTA, WEDNESDAY APRIL 8, 1925

SUBSCRIPTION \$2.00 A YEAR

GLEICHEN BUSINESS MEN HOLD GOOD MEETING

A meeting of the business men of Gleichen was held in the dining room of the Queen's Hotel on Wednesday night last, April 1st. The business element of Gleichen was well represented, being as follows:

Messrs. L. M. Webster, Geo. Matthews, R. M. Stabback, R. A. Brown, M. Murray, N. T. Purcell, T. H. Beach, H. Bowen, R. W. Brown, W. Flanagan, W. H. James, Dr. Farquharson, G. H. McCulloch, Robt. Mornden, and R. Matthews.

Dinner was first served, after which Mr. Geo. Matthews arose and introduced Mr. Geo. S. Houghman, of Edmonton, secretary of the Alberta Retail Merchants Association. Mr. Matthews explained that Mr. Houghman was present at the request of the retail merchants of the town to give a talk on the aims and object of the association, and in particular to co-operate and assist the merchants of Gleichen in straightening out some matters that had recently arisen between wholesaler and retailer. He said that the meeting was now open for the election of a chairman and a secretary.

On motion of Messrs. Purcell and W. H. James Mr. Geo. Matthews was duly elected chairman.

Another motion by Messrs. Webster and Beach elected N. T. Purcell secretary.

The chairman then called upon Mr. Houghman to address the meeting.

Mr. Houghman's speech lasting over an hour was listened to with rapt attention by all. He emphasized that his purpose in coming to Gleichen was not to tell the merchants how to merchandise but rather to co-operate and to organize. To co-operate with one another, with the wholesaler and the consumer and to organize. In organization alone did he think that the retail merchant could at all exist. It was his only hope. There could be nothing achieved by individual effort. Referring briefly to the recent discussion between the Gleichen merchants and the wholesalers of Calgary he thought that this matter could only be satisfactorily dealt with through the provincial Retail Merchants Association. In this way it was quite possible that a fair and equitable trading policy could be formulated by the retail merchant that could be approved of by and supported by the wholesalers. He spoke at some length on the good work done by the association in past years in Alberta and many of the other provinces of Canada and said that after his twelve years experience with the Retail Merchants Association work he felt he could safely say that an organization was the only force that could possibly cope with the ever-changing conditions of retail merchandising. He spoke at some length about the Board of Commerce and the mail order houses.

He did not believe in price fixing or combines. It was illegal. It was a vicious practice and spelt disaster to the merchant who adopted it. There was such a thing, however, as price maintenance which he advocated which only meant a fair margin of profit to wholesaler and retailer.

Upon suggestion of Mr. Houghman the meeting then resolved itself into an informal committee and matters relative to the association and merchandising were discussed.

Upon request Mr. Houghman gave a short talk on fire insurance as conducted through the association. He claimed it a safe and satisfactory insurance proposition. That last year a saving of \$14,000 was effected by the members insured through a return of 25 per cent of premiums. He emphasized, however, that he did not care to talk on insurance. His object was in building up a strong retail merchants association.

Numerous questions were asked and answered regarding transient traders, peddlers, taxes imposed on them, etc.

Group buying by the association in various lines of merchandise was

GLEICHEN STAMPEDE TO BE PRELIMINARY TO THE BIG CALGARY STAMPEDE

Gleichen 36-Horse Team to Start Stampede Work Here

In an interview with Mr. Chris. Bartsch, Gleichen Stampede manager. He said that the Gleichen Stampede, on June 30th and July 1st, will be the roundup time and the workout place for the Calgary Stampede.

"Here is where the 'Bronchs' will meet the 'Busters' in their first encounter for supremacy. The judges will then recommend the winners to Calgary for six days hard labor with real prize money in their pockets," said Mr. Bartsch.

"The cowboys all know what Gleichen can do in the way of a stampede and have not forgotten how well they have been treated in the past. Nothing but a broken neck will keep them away. Cowboys from the American side usually get into Calgary about ten days ahead of show time rarin' to get into the fraces and they will come here to look things over and take a hand I am sure."

"The 36-horse Gleichen District team will have their first work out on these two days before starting for Calgary where they will be one of the main features in the exhibition. We will have the best men and the worst horses here at our doings that can be found on the American continent so you may know there will be something doing at the Gleichen Stampede."

ALL NOW IN READINESS FOR "OH! SUSAN!" NEXT MONDAY, APRIL 13th

After weeks of study and real hard work the ten local amateurs that will appear in the comedy drama "Oh! Susan" are all ready for the raising of the curtain Easter Monday night, and the few rehearsals they have had the past week on the newly erected stage in the Community Hall has shown that they need not fear any adverse criticism and their entertainment will be well worth the entrance fee.

The cast of characters are given below but in order to still lend a due proportion of curiosity the names of those taking these characters are withheld:

Cast of Characters:
"Danvers Meredith," healthy, wealthy and wise.
"Mrs. Marion Weatherby," his aunt, who plans not wisely but too well.

"Rose and Edith Parsons," two Rosebuds in the garden of girls.

"Janet Dalton," who usually gets what she goes after.

"Mame," who takes what she wants when she wants it.

"Lefty," a light-fingered gentleman.

"The Old Soak," the proud father of these two.

"Jason and Mrs. Hawkes," who love and serve the Merediths.

The scene of the entire four acts are in the living room of the home of Danvers Meredith, and the stage will be well arranged for the occasion.

While the drama is well worth the admission it should be kept in mind the Women's Institute have in view the very worthy object of making the final payment on the piano they presented to the Community Hall.

The best advice is to buy your tickets in advance as a big attendance is assured.

also freely discussed.

A scheme for local advertising in the Gleichen Call jointly by all the merchants was discussed at some length, with the result that a committee consisting of Messrs. Flanagan, Dr. Farquharson, Stabback, Purcell, Webster, Matthews, and Beach, were selected to meet Monday evening, April 6th, to consider the matter carefully and make all necessary arrangements.

On the following day quite a number of the merchants made application for membership into the association and it is thought that in a very short time a local organization will be formed in Gleichen.

THE UNION CHURCH EASTER PROGRAM

The Easter program at the Union Church promises to be of unusual interest. Preliminary to the Sunday

MOCK TRIAL IS ATTENDED BY LARGE CROWD

"The Case Against Casey"

The mock trial "The Case Against Casey" was presented in the Meadowbrook Community Hall, last Friday evening and was well received by a large audience of country people who undeterred by the bad roads turned out in large numbers to see their neighbors perform. Every member of the large cast performed in a highly creditable manner and kept the audience laughing all the way through. The cast included: Miss Doty Perkins, Mrs. C. W. Ulrich.

Mr. Dennis Casey, A. H. McPhee. The Judge, C. W. Ulrich. Clerk of the Court, A. F. Wilson, jr. Attorney Slim, Geo. Bell. Attorney Take-the-coin, A. F. Wilson, sr.

I. M. White, R. J. Burns. One Lung, L. Robinson. Fritz Bumblesburg, Korfendorfenstein, G. H. Walker.

Iszy Marks, K. H. McPhee. Hiram Heareasy, J. R. Allgood. Flawewski, Claude Roueche. Jonathan Judkins, James Bates. Mulcahey, Foreman of the Jury, T. R. Burns.

The Kid, Jack Wilson. Well-done Macaroni, J. A. Blackburne.

A French Count, Basil Payne. Wear Good Clothes, Stanley Hall. Ole Oleon, R. S. Robinson. Redden Lawler, E. P. Lawler. John Gunn, Fred Bowen.

L. C. Uno, J. C. Buckley, jr. Clawhammer, J. C. Barton.

Mrs. C. W. Ulrich is entitled to special mention for her interpretation of her difficult role, and the thanks of the whole community are due to Mrs. J. A. Blackburne, who acted as director and who is responsible for the success of the whole undertaking.

A dance followed the play and the music was provided by the Meadowbrook Community Orchestra, (which is a new organization consisting of J. C. Barron, violin; Miss Alice Blais, piano; A. Blais, violin; and Fred Bowen, drum. That the work of these young people is appreciated was evidenced by the fact that the dances at the conclusion of the dance gave three hearty cheers.

It was announced that the next dance would take place on Easter Monday with the same orchestra.

GLEICHEN U.F.A. INVITE TOWN PEOPLE TO MEADOWBROOK HALL

TUESDAY, APRIL 14th, 8 P. M.

Arrangements are being made by the Gleichen U.F.A. to have Prof. Archibald Mitchell give an address in the Meadowbrook Community Hall on Tuesday, April 14, on tree planting and it is hoped that all who are interested will keep this in mind and be on hand. Pres. Frank Daw is in hopes the people of the town as well as those in the country will take advantage of this opportunity to hear Prof. Mitchell, who is an authority on the subject. In this way the town and country people can get together and materially aid in beautifying our district. Remember the date, April 14th at 8 p.m. A number of picture slides will be shown.

I. O. O. F. DANCE

The Oddfellows of Gleichen will hold their annual dance on April 24 in the Community Hall and the proceeds will be handed over to the hall committee. As the Oddfellows are great entertainers, no doubt, as in past years, the dance will be a great success.

will be "A Grave in a Garden." There will be Easter music by the choir.

To all of these services the public are cordially invited. The loan of plants and ferns for the day will be very much appreciated.

Why Boys Leave The Farm

The question suggested by the above heading has been the subject of countless discussions, debates, newspaper and magazine articles. It has never been satisfactorily answered, nor has the problem itself been solved. As a matter of fact no completely satisfactory answer can be given because the reasons why boys leave their farm homes are as varied as the characters of the boys and the farms from which they come.

Although no one general reason can be advanced for boys leaving the farms, it is nevertheless well that continued attention should be devoted to the subject. To some extent the subject should receive community attention, but more particularly it is one to be studied and the problem solved by the parents of the boys. As has already been stated, what influences one boy to leave the farm does not make any appeal whatever to another boy. In the case of the second boy the urge to go arises from some entirely different cause.

If a boy on the home farm is becoming restless, losing interest in the farm, becoming discontented and unhappy, it is inevitable that sooner or later he will leave unless the reason for his dissatisfaction is learned, and, if possible, removed. Because father and mother have been satisfied to remain on the farm is no reason in itself why son or daughter should be content to do so. The important thing is to develop a keen desire for farming and farm life.

Among the reasons usually advanced why the boys—and girls, too—leave the farm are the attractions offered by the bright lights, the amusements, the companionships of the cities. Undoubtedly they have their drawing power, although, all too frequently, they prove will-o'-the-wisps. Again, the shorter hours of work in city offices, shops and factories make strong appeal to the farm lad who has a continual round of chores and tasks from dawn to dark. City work appeals to him as easier, more pleasant, and as offering greater opportunities for advancement and culture. Too often the boy feels that he is merely a hired man on the farm instead of a partner in a family enterprise. The present is not satisfactory to him while the future holds out no great promise of anything better.

Then there is, of course, those boys to whom farm life does not appeal, but who have a real yearning to become doctors, lawyers, teachers, merchants, mechanics, business executives. On the farm they are, and always would be, square pegs in round holes, just as there are city residents who yearn for the land. It seems to be easier, however, for the farm boy to drift into a city job than it is for the city man to establish himself in rural life.

But is there not another aspect of this question to which too little attention has been given in the past? Is it not a fact that farmers do not "magnify their calling" as they ought to do? Recently a farm boy wrote an article on this much discussed question as to why boys leave the farm, and this boy's views are worthy of serious consideration by farmer's and farmer's wives. He asked what encouragement there was for boys to remain on the farm when their fathers and mothers were continually crying down the farm and its work. Instead of helping to keep their boys on the farm such tactics simply drive them away.

Further, this boy's observation led him to the conclusion that many farmers only provided full educational facilities for those of his children who were going into some other occupation than farming, and that the boy who was willing to stay with the farm was only given as much schooling as the law insisted upon. In other words, the boy who elected to stay with the farm was denied those advantages and opportunities of self-improvement granted to those who had determined to leave the farm and go into other lines of work.

It is not denied that many farmers have had hard struggles and many discouragements, but constant dwelling upon them does not help to better conditions, nor is it calculated to inspire the children to remain with the farm. And if many of these farmers could fully realize the struggles and discouragements of thousands of unemployed in the cities, and of the fear ever present with other thousands that they may be "laid off" next week or next month, they would get a truer perspective of their own situation.

It cannot be expected that a high spirited ambitious boy looking forward on life is going to stay with the farm if his parents are constantly running it down. Such a boy insensibly makes up his mind that his home is going to be different, that when he marries he is not going to condemn his wife to a life of which he hears his father and mother make constant complaint.

After all, it is not so much the isolation of rural life—which is largely passing with the advent of the rural telephone, radio and the motor car—nor the long hours of work, nor even the disappointments which some seasons bring, that causes many boys and girls to leave the farm. Rather it is the atmosphere of the farm home and the fact that its disadvantages and discouragements are dwelt upon so much and silence maintained regarding its undoubted advantages in so many ways over city life.

If in those farm homes where a feeling of gloom and a complaining spirit has developed, these tendencies were relegated to the background, and the boy who elects to stay with the farm was given equal advantages with the others, it is probable that more boys would choose to stay with the farm.

Provincial Seed Plant

The Alberta Government seed cleaning and grading plant operated by the provincial department of agriculture and the Alberta Seed Growers' Association, has handled to date for the present season a total of over 52,000 bushels of registered seed grain. Alberta farmers desiring to secure some of this seed should apply at once to W. J. Stephen, field crops commissioner, department of agriculture, Edmonton.

For Exploration Cruise

Recalled to England to take charge of the engine room of the Antarctic ship Discovery, which will leave Portsmouth Bay in May on a scientific expedition to South Georgia and the South Shetlands, Lieutenant-Commander W. A. Horton, who was chief engineer of the Terra Nova, on Captain Scott's ill-fated dash to the South Pole in 1912-13, reached Victoria from Shanghai on board the liner Empress of Asia.

Testing Lignite In Europe

Saskatchewan Product Goes to Germany To Be Briquetted

Practical tests of briquetting Saskatchewan lignite coal are to be made in Germany and Czechoslovakia.

It is expected that the tests will take between six and eight weeks and that the results will be known in time to permit of the remodelling of the Blenfaut plant in June if the tests prove as successful as anticipated.

Fifty tons of the Blenfaut product were shipped in barrels to St. John's in two carloads. The coal was loaded onto a steamer for Rotterdam and will be tested under the Stinnes and Thyssen systems in Germany, and the Britfeld-Danek system in Czechoslovakia.

Investigations carried out over several months have led the private interests considering the taking over of the Blenfaut plant to the conclusion that the three systems mentioned above are the most modern and practical.

Drives Out Rheumatism Subdues Lumbago

Brings Ease and Comfort to the Sufferer at Once

NERVILINE

A King Over Pain

Those who seek permanent relief from the grinding pain of Rheumatism and Lumbago should read the letter of P. E. Normand, from Georgetown, who writes:

"I was fairly crippled with aching joints and Rheumatism. Nerviline must have been what I needed, because it cleared up my trouble quickly."

"If you need a reliable, strong, penetrating pain remedy, one you can depend on, get a 25c bottle of Nerviline today; it will make you well quickly."

Another Warning Against White Bread

Professor Says Appendicitis Is Traceable to This Food

Mrs. Nellie Chamberlain, wife of the minister of health, who was present at a lecture on "Disease Caused by Badly Chosen Diet," given before the People's League of Health in London, advocated the use of wholemeal flour.

She said that she had always given her own children wholemeal bread. The lecture was delivered by Professor R. H. A. Plimmer, who said that the spread of the dread malady known as beriberi was proved to be largely due, as far as the white race were concerned, to the consumption of white bread, and the increasing prevalence of appendicitis in late years was traceable to the same source.

HEART WAS WEAK NERVES ALL GONE

Mrs. J. H. Hallenbeck, 117½ Weland Avenue, St. Catharines, Ont., writes:—"I was in a gas explosion; it left me with a weak heart, and my nerves were all gone. I suffered everything; couldn't sleep, or endure any excitement, and when left alone I felt as if I could scream. I took dizzy spells, often falling and bruising myself. My mother read about your Milburn's Heart and Nerve Pills, and bought me a box, but having taken so many different kinds of medicine it just seemed that I did not have any confidence in any of them. I took one box of H. & N. Pills, and felt so much better I continued with them until I had used five boxes, and after I had taken them I did not need any more. I cannot praise, or recommend, Milburn's Heart and Nerve Pills too highly after all they have done for me."

Put up only by The T. Milburn Co., Limited, Toronto, Ont.

Finances In Good Shape

Britain Receives Substantial Income From Foreign Investments

The British board of trade issued an estimate the other day of that part of the national income which is earned abroad. The earnings for British investments in foreign countries are put down at slightly more than one billion dollars. If the average interest rate was 5 per cent., the investments must have amounted to nearly eighteen billion dollars. The busted British seems to have saved a bit from the wreck. You have to hand it to John Bull. He has a way of looking out for himself.—Kansas City Star.

Shingling, now a popular mode of bobbing, was regarded as an act of penance among the early Christian women of Rome.

Latvia has only 201 miles of railroad.

Chicago has more snow than Ketchikan, Alaska.

Hebridean Colonization At Vermilion, Alberta

Scottish Immigration Aid Society's New Scheme

The settlement of Hebrideans in Western Canada has been one of the most satisfactory phases of Dominion colonization in recent years, regarded from all the various viewpoints. The delegation from the Hebrides, headed by the Very Rev. Canon Macdougall, which toured the Dominion last fall and closely investigated Hebridean settlement with a view to stimulating and expanding such colonization if found justifiable, expressed itself as completely satisfied with what had been accomplished and the happy and prosperous state of Hebridean settlers in Canada.

The Scottish Immigration Aid Society was formed by a group of philanthropic individuals who were keenly appreciative of the benefits of Hebridean settlement in Canada, and were desirous of extending it to the mutual advantage of Canada and Scotland. It introduced a novel note into Canadian colonization by erecting a number of cottages on land in Alberta for the reception, assimilation and training of newcomers from the Hebrides, where the immigrant, after travelling the thousands of miles by land and sea, instead of facing the hardships of pioneering, found a home awaiting him on arrival.

The society's plans for 1925 are equally novel and ambitious. Recently, through taking advantage of the provisions of the Empire Settlement Act, the society was able to complete the purchase of a substantial block of land just north of Vermilion in Alberta, consisting of nearly 20,000 acres. This block is diagonally intersected by the Cut Knife-Whitford branch of the Canadian Pacific Railway, which provides convenient and adequate transportation facilities.

Through funds secured by participating in the terms of the Empire Settlement Act, the society is at present engaged in building houses on each quarter section of the block. As soon as these are ready one hundred eighty families will be brought out from the Northern Scottish Islands to occupy them. Everything will be found on their arrival in complete readiness for immediate residence, and the settlers be placed many years ahead as compared with ordinary pioneer settlement. Each family will be assisted in getting farming operations under way immediately with a loan of \$1,500. These arrangements, in combination with the proven qualities of application and perseverance possessed by Hebrideans, form the best augury for success.

Recreation Park For Winnipeg

Construction operations on what engineers claim will be the finest recreation park in the whole of Canada, will start in Winnipeg early this spring, promoters of the project announce. The contract has been awarded to A. J. Creelman, of Vancouver. The park, which will cost approximately \$150,000, will provide facilities for every branch of athletics and sport.

Jellyfish can live at a depth of 6,000 feet in the ocean.

GIN PILLS FOR THE KIDNEYS

Kidney disease is dangerous unless checked. Gin Pills will remedy all kidney troubles. Get a box to-day before it is too late.

Advise Nature Lovers Camp Craft Secrets

New Booklets of Canadian National Railways Gives Useful Hints to Fishermen, Campers and Sportsmen

The "out-of-doors" appeals to all Canadians and few countries in the world have been so favored in the matter of holiday places. In every province are magnificent fishing streams and lakes, hunting or camping grounds. In many cases, however, the novice about to start out for a holiday in that out-of-doors wonders just what provision he should make in the way of clothing and outfit, and also what food supplies, bedding, etc., he is likely to need. To meet the requirements of such Canadians, planning for outings in the lake, river or woods districts of the Dominion, a splendid book, etc., "Camp Craft and Woodlore," has been issued by the Canadian National Railways and is being placed in the hands of ticket agents for distribution.

"Camp Craft and Woodlore" is dedicated to those who would answer the call of the open, according to the foreword of this booklet. In it are found many helpful hints gleaned from the experience and learning of years and related in the hope that their telling may widen the appeal of Canada's great natural playgrounds and add to the numbers who have discovered their charm and delight.

The booklet gives the prospective camper information on what to wear; how to carry equipment; what to eat; how to locate camp sites and how to sleep well. Health instructions and first aid in accidents are given prominence, as also are weather signs, compass variations, and instructions on what to do when "lost in the woods." Altogether, the prospective camper will find this booklet one of the most valuable that has yet been placed at his disposal.

A New Aid To Health

Chicago Weekly Bulletin Emphasizes Benefit of Crossword Puzzles

The Chicago department of health's weekly health bulletin, emphasized the benefit to crossword puzzles to general health and happiness. It was discussed under the title of "Crossworditis."

The cause and effects of "the savage little crossword puzzle microbe," the bulletin said, "may be largely explained by the fact that part of our lives and much energy must be put into amusement, to satisfy the play instinct within us. Therefore any play or game that has a mental 'kick' in it is quickly accepted and eagerly pursued."

United family circles and happiness to convalescents and chronic invalids were listed in the report as among the good purposes served by the crossword puzzles.

To Enforce Game Laws

Game Men Are Assured Grouse To Be Protected

That every precaution would be taken to curtail the shooting of prairie chicken in larger numbers than was allowed by law was the assurance which the central executive of the Central Saskatchewan Game Protective Association has received in a letter from the deputy minister of agriculture.

The letter followed a protest being lodged by the Game Protective Association after sending a man to Rosethorn to investigate a complaint of killing chicken on a wholesale scale preferred against a farmer of the Rosethorn district. The farmer had been issued a permit to kill the chickens in order to prevent them destroying his grain which was still in stocks in the field.

To Investigate Tax Collections

A motion to renew the authority given the commons committee on public accounts last year, to investigate the method by which business profits and income taxes are collected in Canada, was made in the House of Commons by W. C. Good (Progressive, Brant). On request of the acting minister of finance the motion was allowed to stand on the order paper until a future date.

Gets New Railway Line

Hon. G. P. Graham, minister of railways, has given notice of a bill for a branch line from Bengough to Willow Bunch, Saskatchewan. The estimated cost is \$945,000, to be met jointly by the Canadian National and Canadian Northern Trust Funds now standing to the credit of the provincial secretary of Saskatchewan.

Egypt Controlling Drug Traffic

A royal decree has been issued in Egypt promulgating a new law for control of the traffic in narcotic drugs. The decree was made necessary by the alarming increase in the drug habit in Egypt in recent years.

Minard's Liniment for Colds

On the Up Grade

Status of Agriculture in Canada Showing Healthy Improvement

Canadian agriculture experiences its elevations and depressions like any other industry, these fluctuations being possibly more violent and more difficult to anticipate since the state of prosperity of Canadian farming is largely dependent upon world conditions, supply and demand. During the years of the Great War, Canadian agriculture experienced a period of unparalleled prosperity, says Agricultural and Industrial Progress in Canada. In the aftermath it suffered a severe slump due to the depreciation of prices for farm products. Just now the status of Dominion agriculture is distinctly on the up grade again.—Regina Leader.

A Corrector of Pulmonary Troubles.

Many testimonials could be presented showing the great efficacy of Dr. Thomas' Electric Oil in correcting disorders of the respiratory processes, but the best testimonial is experience, and the Oil is recommended to all who suffer from these disorders with the certainty that they will find relief. It will allay inflammation in the bronchial tubes.

Pacific Means Peace

The Natural Barrier Separating Japan From United States

Our navy could not cross the Pacific and successfully wage war, says General Mitchell in defending his air service ideas. If that is the case, it must be equally true that the smaller Japanese navy could not cross the Pacific and successfully wage war. Is not that about as near to an ideal situation as we could get? If neither navy could cross the Pacific and successfully wage war, the preservation of peace becomes a practical military necessity on both sides, does it not? And isn't that what we want? Were not the naval limitation treaties designed to produce just such a balance as that?—Buffalo Express.

Many have been relieved of corns by Holloway's Corn Remover. It has a power of its own that will be found effective.

Take Large Space At Wembley

The annual general meeting of the Canadian Manufacturers' Association will be held this year at Hamilton, Ont., from June 1 to 4, it was decided at a meeting in Toronto.

Canadian manufacturers have taken up practically all available space in the industrial portion of the section of the British Empire Exhibition at Wembley for 1925, it was reported.

Amateur Inventors In England

Over One Hundred Discovered Whose Inventions Have Commercial Value

The simple expedient of offering prizes of \$50 has resulted in the discovery that there are 152 amateur inventors in England whose inventions have a commercial value. The Institute of Patentees offered prizes for the best inventions in several classes, and about 500 inventions were submitted from which four major prize winners were selected. The 152 inventions will be submitted to various manufacturers.

The major prizes were awarded to the inventors of a kettle with a lid that will not fall off; a rotopscope based on the theory of relativity for gauging the speed of machinery, and a machine for bending rods and tubes.

Sir William Grey-Wilson, head of the institute, is an inventor of renown and his house is full of his handicraft. One of the most ingenious is in the chicken house. A few grains of corn are placed in a tin beneath the perches. When the chickens wake and peck at the corn, a spring is released which opens the door of the house.

To Asthma Sufferers. Dr. J. D. Kellogg's Asthma Remedy comes like a helping hand to a sinking swimmer. It gives new life and hope—something he has come to believe impossible. Its benefit is too evident to be questioned—it is its own best argument—its own best advertisement. If you suffer from asthma get this time-tried remedy and find help like thousands of others.

Reparations For Canada

The high commissioner for Canada expects to receive within the next few weeks about \$800,000 as the first instalment of the German reparations under the Dawes plan. Great Britain has already received 85,000,000 gold marks, and Canada stands to receive 4.35 per cent. of this sum.

Man Had Big Heart

A man with a big heart was found recently in Great Britain, when an autopsy was performed on his body, after a sudden death. The heart weighed nearly two pounds, instead of the usual weight of from 15 to 18 ounces.

Good Price For Land

A price of \$33 an acre for a farm near Claresholm, Alberta, was reported in a sale made recently. This is the highest price paid in that district for some years, according to the Lethbridge Herald.

GLEICHEN, ALBERTA, WEDNESDAY

SUPPORT YOUR OWN TOWN

The following editorial, which appeared in a recent
issue of The Plaindealer, Souris, Man., applies with equal
force right here in our town. It should be read and care-
fully considered by the people of this town and district.
The Plaindealer says:

The big new catalogue is out, all full of pictures 'n
everything. And in the course of the next few months
doubtless large sums will go to Winnipeg in return for
merchandise that can be bought just as well at home.
Last year the mail order house took from Souris district
at least \$100,000. To do this business in Souris they spent
over \$4,000 in advertising, which amount is more than all
the Souris merchants spent put together. It is only neces-
sary to quote the mail order house's own figures to the
effect that forty high waged engravers are kept steadily
employed working on catalogue cuts, to prove that these
figures are not high, but low.

But on the other hand this same mail order concern
pays only \$11,000 in taxes per year to the city of Win-
nipeg while they pay nothing to anybody for the enormous
business they do all over the country. A concern doing
\$100,000 business in Souris would pay in taxes some \$500
or \$700 towards keeping up schools, etc., in Souris, and if
the mail order concern had to pay a similar tax in every
town, village or community to assist in keeping these
schools open the aggregate amount would be less. Mr.
Forrest, at the trustees convention recently, stated that
it was impossible under the existing system to tax lawyers,
employees or even business men. But the business men
in Souris of the dry-goods, grocery, hardware, jewelry
and furniture class are taxed and taxed heavily. But
mail order houses are not.

The Plaindealer does not print this for the sake of its
advertisers, but simply in the interests of fair play and
the ultimate interests of the district. Every time a mer-
chant, that in a year contributes \$1,000 in one way and an-
other to the taxes or revenue of Souris, goes under, the
tax rate is increased one mill to make up the loss. If the
Plaindealer so wished the largest ad in this issue and
every issue just now would be that of a mail order house.
But we absolutely believe that buying at home whenever
possible and for cash, is the spirit of good citizenship, and
good business and fairplay.

MISUNDERSTANDING

We are satisfied that the major portion of the little
and big troubles that come to us are the result of misunder-
standings, or in other words, too much static.

You do something we do not understand, and we im-
mediately charge you with being crooked, or if we are in-
clined to be halfway fair about it, we at least ascribe to
you wrong motives.

We have made a rule, and this one we are going to
live up to. We are never going to charge anybody with
anything until we thoroughly understand the situation.

If anything happens which seems to be wrong, we
are going to see the party personally if possible and talk
it over, but if the distance is too great for personal contact
we are going to write him and give him an opportunity to
explain before we fly off the track and undoubtedly lose
a personal or business friend.

In this way we know we are going to tune out of our
life very much by way of static or misunderstanding.

A SPRING THOUGHT

The common or garden variety of householder is now
coming into his own. Others may shine in the various
other seasons, but April comes, with its promise of May,
and June, then the man who knows how to do things
around the yard becomes a citizen of paramount impor-
tance. You may know much about a straight business policy,
but can you plow a straight furrow? If you can not man-
ipulate a hoe in the spring-time, of what avail is it to you
as a citizen that you can pilot a straight eight? But if
you can make two potatoes grow where none grew before,
or can induce a green onion to bob itself above the green-
sward where before was only grass, you are entitled to the
distinguished service cross of domesticity.

IN THE BOY'S POCKET

Riddlecome, riddlecome rocket! What does a small
boy carry in his pockets? A recent inventory of a Gle-
ichen boy's trousers pockes which were bulging almost to
the bursting point with a collection of curious articles
and listed as follows: Nine nuts, a motor-cycle wrench,
a rubber band, a radiator drain plug, a pair of pliers, two
ornamental harness rings, a tire valve core, a stub pencil,
large button, a pair of leather gloves, ditto cotton, a cal-
luloid hairpin, two lead weights for fishing lines, an
illustrated page from a magazine, a button from a blouse,
a leather shoelace, a small stove bolt, a large flat washer
a stove hinge rivet, a tenpenny nail, two matches and a
spring from an oscillating magneto.

Gleichen Motor Co.

Authorized Ford and
McLaughlin Dealers

Now is the time to have your Ford put
in shape for spring. We are forwarding
to all Ford owners in this district a phamp-
et showing our flat rate labor charges..

If you wish any work done you have
only to look at the chart and know exactly
what it is going to cost. If you do not re-
ceive one of these phamplets call or drop a
a-line and we will be pleased to forward one
to you.

We have at the present time some good
buys in second hand cars. It will pay you
to call and inspect these cars.

POBST'S MACHINERY CONTEST

(A New One Each Week)

I will allow \$5 on a rod weeder to the first one whose letter is opened by the judges on April 11th which contains the correct answer to the following problem:

PROBLEM:—Divide an isosceles triangle with a height of 20 feet and base 2 feet at right angles with the altitude so there is equal area in both ends.

My rod weeders are driven from both ends, and each section is flexible and will follow the contour of the land, which allows the weeder to do better work in finishing furrows and head lands. The standard is not straight up to catch the trash, but is slanting and will pass over. The weight is on the wheels so as to insure a traction and there is a seat and castor wheel and also an arrangement whereby the rod may be lifted clear of the ground for transportation. The weeder is running on three wheels, best of materials and workmanship, and costs no more than others.

ANSWER TO NO. 4 "Skinny Bowen and Lorne Webster and the Chinamen reminded my customer of two nuts and two washers." Miss Ella Robinson the winner.

P.S.—A 4 H. P. Mogul kerosene engine for sale

F. E. POBST, GLEICHEN.

HENDERSON & MALLORY

Owing to the frequency of Farm Fires, the attention of Farmers is especially drawn to the very low rates charged for insurance of grain whilst stored in barns or granaries. The result of a year's work is often swept away in an hour, and every farmer should protect himself by carrying a policy with

WESTERN MANAGER

THE rapid expansion of the colonization work of the Canadian National Railways in Western Canada, and the excellent results obtained during 1921 under the direction of Mr. E. A. Field, and Commissioner, have justified the formation of plans for the five extension of this work during 1922, and some staff changes. Formal announcement is now made but dating from January 16th, 1922, Mr. Dan M. Johnson is appointed Western Manager of this department with headquarters at Winnipeg, an appointment which will meet with very general approval throughout eastern and western Canada where Mr. Johnson is favorably known as a first class agriculturalist, stockman and business executive.

Born on the Kincaid farm at Redding, near Winnipeg, in 1884, which farm was at that time managed by his father, Mr. Johnson in his early years received a very thorough training in agriculture, both theoretical and practical. His studies were pursued at Upper Canada College, Toronto, Ont.; Wyckoff College, Glenora, Ont.; England; Ontario Agricultural College, Guelph, Ont., and Toronto University, from which institution of learning he graduated in 1908 with the degree of Bachelor of Science in Agriculture. From this time until 1915 he was busy on the land as a practical farmer at Myrtle, Ontario, and North Battleford, Saskatchewan, gaining in that period invaluable experience of the farmer's problems as they are encountered in actual operation. Having by this time acquired a reputation as a stock raiser, he was in August, 1915, appointed Market Representative at the Dominion Stock Yards, St. Boniface. In 1918 Supervisor of Stock Yards, charged with the enforcement of the Live Stock and Live Stock Products Act of 1917, and further promoted in 1920 to be Chief of Stock Yards Service for the Dominion Government.

On July 1st, 1922, Mr. Johnson resigned his position with the Dominion Government to become Agricultural Agent for the C.N.R., and was appointed General Agricultural Agent on Feb. 1st, 1924. His wide experience with agricultural, live stock, and land settlement matters, and extensive acquaintance with those directly interested in such matters, will be of considerable assistance in the performance of his new duties, which, in view of the immense importance of active colonization work to western Canada and the Canadian National Railways, affords almost unlimited scope for his activity. Among other features of the work receiving Mr. Johnson's personal direction is that of the Employment Service for Farm help which the Colonization Department has organized as a matter of placing newly arrived immigrants in farm labor.

Orchestras from the Canadian Pacific steamships "Empress of France" and "Empress of Scotland", when they arrived recently at New York and before sailing on their round the world and Mediterranean cruises which the company starts annually from that port broadcasted through WJZ a forty-five minute programme of selected Scots, English, Welsh, Irish and Canadian airs, while the "Montroyal", on her return from the company's cruise to the West Indies, broadcasted British and Spanish music through WJY of New York.

Information furnished by J. Frank Callbreath, packing contractor and general merchant, shows that during the 1924 hunting season, parties secured 12 moose, 25 caribou, 26 goat, 31 sheep, 15 black bear and 11 grizzlies in the Telegraph Creek district of British Columbia. Of the caribou, the largest, shot by J. J. Sartori, of Brooklyn, N.Y., has a spread of 47 inches, is 39 1/4 inches long and has 27 points. The largest sheep horns were 41 1/4 inches long, with a spread of 31 inches, and were secured by A. D. Stewart, of New York.

R. W. Brown is still selling home-made bread at 10 cents a loaf and having on hand a considerable quantity of flour hopes to continue selling at this price at least until the new wheat comes on the market.

Here and There

Under the joint Canadian-British Government scheme, 3,000 families are being brought to Alberta this year and the first party of families will arrive in April. They will first be guaranteed employment and later will take up their own land.

Henry E. Suckling, Treasurer of the Canadian Pacific Railway since 1908, died recently at Atlantic City after an illness of several months. He was born at Gibraltar in 1851 and had been associated with railways in a treasury capacity since his early manhood.

J. C. Mitchell, of Dahinda, Sask., known as the "world's champion wheat grower" returned home recently from a lecture tour of the British Isles. "Go West, young man, go West," is his advice to all who wish to try their fortunes in the Dominion.

Speaking at Toronto, Hon. Charles McCrea, Minister of Mines for Ontario, said that the estimated output of the mines of the province this year will be around \$75,000,000. In regard to gold he stated that by 1928 Ontario was expected to top the total production of the United States.

A new Silver Trophy donated by the English Football Association to the Dominion of Canada Football Association for annual competition among Canadian clubs has arrived in Canada and will be on exhibition at Canadian Pacific stations at Montreal, Toronto, Winnipeg and right across the West.

An expedition which will try to climb Mount Logan (19,359 feet) in the Yukon, the loftiest peak in Canada, is to leave Vancouver in April. It will be headed by A. H. McCarthy and Col. W. E. Foster, of Vancouver, and six other gentlemen, including a representative of the English Alpine Club, will complete the party.

Agricultural products in the Province of Manitoba during the year 1921 reached a total estimated value of \$164,412,857, according to figures issued by the Provincial Department of Agriculture. This amount is nearly double that of the previous year and is accounted for largely by the big upturn in the price of wheat.

The shield which was taken from the gates of Old Quebec when the city was captured by General Wolfe, and is in the possession of the town of Hastings, will be returned to the Ancient Capital. The Hastings Council have decided to return the shield which was presented to them by General Wolfe Murray, a descendant of the famous soldier.

Miss Ethel Loguska, temperamental pianist, gave another taste of her quality when she lectured a socially prominent audience for coughing in the middle of a concert at Englewood, N.J. "If you can't control yourselves, please don't stay here," she remarked. About fifteen disgruntled members of the audience left the hall indignantly.

Trail Riders of the Canadian Rockies have developed the idea of using snow shoes for horses over the heavy snow tracks of the region. In this way great quantities of supplies are brought considerable distances across trails that would otherwise be impassable to heavy loads. Trail Riders are holding their second great Pow-Wow early in August next.

Devising a new kind of motion picture camera with a built-in motor that is almost noiseless in operation, Burton S. Moore, proprietor of the Nictau Camps in New Brunswick, has succeeded in taking about 4,000 feet of film of wild life in action which will be shown in due course on Canadian and United States screens. He has been particularly successful in depicting every motion in that special phenomenon by partridges known as drumming.

Over half of last year's western grain crop was handled by the Canadian Pacific Railway according to data just issued by the Dominion Bureau of Statistics. Of the total grain inspections numbering 172,856 cars during the seven months to February 28 last, 99,237 cars were on the company's lines, representing 57 1/4 per cent, while of the 130,157 cars delivered at Port William and Port Arthur during the same period 68,690 or 52.8 per cent are credited to the company.

A recent analysis of immigration according to occupation of immigrants arriving in Canada since 1920 shows a steady increase in the ratio of agriculturists and domestics towards all others. In 1921 the figure was 35 per cent. It was 44 per cent for the fiscal year ending March 31, 1922, 47 per cent for the fiscal year 1923-24 and 51 per cent for the nine months April to December, 1924.

One of the outstanding features of the Grain Commission Board's report for the season 1922-23, was the tribute paid to the excellent service rendered by the Canadian Pacific Railway in handling the western crop. Though the company handled 105,080 cars of grain, it received only six complaints about lack of cars from the railway and commission combined. In 1923-24, with an even larger number handled, there were only eight complaints.

Are you needing \$5?? Read F. E. Pöbst's ad. in this issue.

Canada Must Fight Geography

Sir John A. Macdonald, the first Premier of the Dominion, used to say that Canada was a difficult country to govern. The truth of that observation has become more and more apparent with the passing of the years. In Sir John's day the greatest difficulty was found in reconciling the opposing viewpoints of the French and English speaking, Protestant and Roman Catholic elements in our population, although he also was confronted with the differences existing in the economic requirements of Ontario and Quebec as compared with the Maritime Provinces. The West versus East problem had not become acute prior to Sir John's passing.

Much of the bitterness in regard to racial and religious differences which divided Canada into two camps in the eighties and nineties has passed away. Occasionally the dying embers are fanned by extreme partisans bankrupt of any solid basis for opposition to their political opponents, but such tactics are frowned upon by the people of Canada generally.

But while education and the cultivation of a spirit of charity has largely succeeded in banishing the old partisanship and bigotry of the past, lines of division among the people of Canada are just as sharply drawn as ever, only now the differences are wholly economic, whereas formerly they were racial and religious. While it is regrettable that there should be lines of division, they are much to be preferred to those which once existed and bedevilled public life and largely nullified every effort toward national development of the Dominion.

In this very strenuous commercial age, and in a world still handicapped by the upheaval of the Great War, Canada finds itself unable to present a united front to the world with a strong and well defined national policy. On the contrary, there is a lack of anything worthy to be called a national policy. There is an absence of deep national sentiment. Instead of the people being united as Canadians first, last and all the time, they are divided into three main groups—the far east or Maritime Province group, the central or industrial group of Ontario and Quebec, and the Western agricultural group. To some extent there is a fourth, or far west group, British Columbia. Events are, however, rapidly shaping themselves making the interests of the Prairie Provinces and British Columbia common interests.

Not man, but nature itself, has set up the obstacles operating to divide Canada into these distinct groups. For half a century Canada has been fighting nature, or geography, in an almost superhuman and certainly courageous effort to build up a united people and nation on the northern half of this continent. Canadian public men, irrespective of party, or race, or religion, and regardless of the fiscal or economic views held by them, have striven to achieve this result. It has been their lifelong dream, and the ardent desire of the majority of native-born Canadians.

Canadians have poured out money like water to develop the Dominion east and west and bind it together and into one unit from the Atlantic to the Pacific. Yet the desired result has not yet been achieved. Why? Because with a mere handful of people Canada has to fight geography all along the line. Nature never intended that the entire traffic and business of this country should proceed along rigid east and west lines. There is, first, the gap between the Maritime Provinces and the centres of Quebec and Ontario, it being easier and cheaper for the central Provinces to do business to the south, for trade, like the flowing water in a river, follows the lines of least resistance. Then comes the 1,900-mile barren stretch between North Bay and Winnipeg. Finally, the Rocky Mountains erect themselves between the Prairies and the Pacific Coast.

In Canada it is a continuous fight against geography to build up a nation along east and west lines. Yet if Canada is to remain a distinct national unit, that fight must be persisted in. There is no other alternative. Either the Dominion must break up into three or four separate groups, or become merged into the republic to the south, or its people must get together, compromise their more acute differences, adopt a policy of give and take, and with renewed courage and energy continue the battle with the obstacles which nature has set in our path to a strong, united nationhood.

It is worse than foolish; it is positively suicidal whether as individuals, geographical groups, or as a Dominion, to go on as the Canadian people have been going. A house divided against itself cannot stand, and Canadians must either get together before long and unite on some common policy which, while not meeting the extreme views of any one section, will be acceptable to and command the support of all, or the Dominion will break up or be swallowed up.

Furthermore, the get-together policy must, in the present temper of the people, be adopted before long or it will be everlastingly too late. It may not be exactly popular to say these things quite so bluntly, but they are true, and the facts might just as well be faced. It is, therefore, the imperative duty of all true citizens and lovers of the Dominion to bend their minds and energies to the task before them and save this Dominion for their children and children's children.

Prince May Visit Ireland

The Prince of Wales may visit Dublin on his return trip from South Africa and South America. It is rumored in London. Inquiries regarding this report have elicited official information that no definite arrangements for such a visit have been made, but that it is regarded as extremely probable that the Prince will on some convenient occasion pay a visit to Ireland.

Took Five Years to Complete

Dallas, Texas, with a population of 158,976, is the largest city in the world with a complete automatic telephone system. The last of switchboards operated by "hello" girls in Dallas was replaced by a machine switching or automatic central switchboard at midnight, September 13 last. This completed the work which was begun in 1919 and which cost \$1,000,000.

Settlers From U.S.

Settlers from the United States, who arrived in Canada by way of the western ports, numbered 153 for the month of January, 1925. The newcomers brought in \$16,710 in cash and \$1,900 in value of effects.

India's First Electric Railway

The first electric railway in India was opened by Sir Leslie Wilson, the Governor of Bombay, when he set in motion a train on a Bombay suburban section of the Great Indian Peninsula Railway.

Minard's Liniment for Colds.

May Soon Control Cancer

Dr. Mayo is hopeful that Scourge May Be Successfully Treated. Dr. Chas. H. Mayo, of Rochester, Minn., one of the country's leading surgeons, told the Philadelphia Forum in an address that he believed cancer would be "under control" within a few years.

By this, Dr. Mayo said, he did not mean that cancer would be cured, nor that it would be preventable, but that it would be more amenable to treatment and that its working would neither be so rapid nor so serious. He based his belief, he said, on the theory that cancer is caused by an organism, perhaps a germ, and on the Wassermann test, through which it is claimed the presence of cancer may be detected.

Dr. Mayo said that the Wassermann test must be confirmed, but that information from Berlin, where the test was announced, indicated it was practical.

Subdues Sore Throat In a Short Time

When a severe cold grips your throat, when it makes you gag and cough—that's the time to get out a bottle of old "Nerviline." This wonderful liniment sinks right in, penetrates to the very core of the affected region. You get a truly wonderful effect from Nerviline, and for sore throat, tight chests and bad colds nothing else will act the same as Nerviline. Five times stronger than other liniments, full of pain-subduing power, Nerviline is a necessity in every home. Get a 35c bottle today.

London Fogs Take Heavy Toll

Deaths From Lung Disease Reach Height During Winter

According to one authority, says Popular Mechanics, a single London fog may cost more lives than a pitched battle. The period of the greatest prevalence of the dense mists is in December, with the other winter months not far behind. At this season of the year the death rate from lung diseases reaches its height. The heavy, moisture-laden air aggravates such maladies, the lack of sunlight reduces physical resistance and illness frequently results from chills caused by the dampness. Mental depression is considered another harmful effect.

Message of Hope

Old Folk

George Crawford Tells What Dodd's Kidney Pills and Dodd's Dyspepsia Tablets Did for Him

Quebec man relieved of rheumatism and stomach trouble. Standon, Que.—(Special).—Another tribute to Dodd's Kidney Pills is sent to us by Mr. G. Crawford, a well known resident of this place. He says: "It is with pleasure that I let you know your Dodd's Kidney Pills have done me good and I am well satisfied with the results. My trouble started from a cold. My sleep was broken and unrefreshing and I had a bitter taste in my mouth, especially in the mornings. Rheumatism also troubled me. I am now taking your Dodd's Dyspepsia Tablets and find them very good. When I feel my stomach bad I take them and get instant relief. My age is 76."

Dodd's Kidney Pills not only relieve the pain or ache that is causing the most distress, but they put the kidneys in good working order and all the impurities and poisons are strained out of the body.

Dodd's Dyspepsia Tablets keep the stomach free from trouble. They are a natural remedy, digesting the food while the stomach rests and recuperates.

Freezing By Wireless

A Scandinavian claims to have designed a contrivance that will broadcast refrigeration (according to the inventor) in exactly the same way as present-day wireless stations broadcast music. All that the housewife of the future will have to do is to keep her refrigerator receiver tuned to a central sending station.

Sores Flee Before It

There are many who have been afflicted with sores and have driven them away with Dr. Thomas' Electric Oil. All similarly troubled should lose no time in applying this splendid remedy, as there is nothing like it to be had. It is cheap, but its power is in no way expressed by its low price.

Either Way Is Safe

Professor R. F. Moulton, astronomer at the University of Chicago, thinks the earth will last a thousand thousand and millicent years yet, or perhaps even a thousand thousand thousand million. He lets us take our choice. Either way, it seems perfectly safe for us to go on enjoying life, if possible.

Building Permits Issued

Reports from 60 cities tabulated by the Dominion bureau of statistics show that the value of building permits issued in January, 1925, aggregated \$52,432,201, as compared with \$1,454,119 for the same month in 1924.

Wanted to Be Human Sacrifice

Japanese Maiden's Request to be Buried Alive is Refused

Tsune Karasumoto, a Japanese beauty of wealthy parentage, has been saved from being buried alive beneath the foundations of a temple, only because her offer to be a human sacrifice was refused, according to the Daily Express.

Ancient tradition relates that a virgin was walked up beneath the central pillar of the Asakusa temple in Tokyo. This unnamed girl voluntarily became a hostage to the earth for the safety of the structure. When the great earthquake of 1923 swept Tokyo the Asakusa temple remained standing.

Pretty Tsune offered herself similarly to safeguard the new shrine now being built in the grounds of the Meiji Tenno mausoleum at Momoyama.

Too Much Authority

Says Work At Port Nelson Delayed By Overlapping

A reported account of how three government departments all met at Port Nelson on the Hudson Bay, each armed with authority to proceed to work on the harbor there, and how each department made it impossible for the others to carry on, with the result that the work was postponed for one year, was recounted by J. T. Shaw, Independent, Calgary West. In the House of Commons while the public works estimates were being discussed.

Mr. Shaw claimed there should only have been one commissioner appointed in the first place, and he advocated "a general manager" over all deputies and their departments to make overlapping of departments impossible.

Prince Will Preside At Scientists' Meeting

First Royal President Association Has Had Since 1859

The Prince of Wales will preside over the annual meeting of the British Association for the Advancement of Science, at Oxford in the summer of 1926. The association has not had a royal president since 1859, when the Prince Consort presided at Aberdeen.

Needless to say, it is no ungraciousness towards the Prince that prompts the regret of a considerable number of savants that this departure from procedure should have been revived. The fact remains that many are disappointed in the failure of the association council to maintain the general practice of choosing the president from among the most eminent scientists of the moment.

Settlement and Congestion

Australia Thinks Canada Settling Country in Right Way

Australia wants more good immigrant population, but it wants, a thousand times over, better diffusion of population. The big Dominion (Canada), despite its 8,788,183 of population, has no bloated cities nearly the size of Sydney and Melbourne, but it has cultivated more towns, and its eighth town beats Australia's eighth by nearly 40,000 inhabitants. It has no slum area like the county of Cumberland, with 650 persons to the square mile, and no habitable region so utterly neglected as the N. Territory and Northern Westralia.—Sydney Bulletin.

Alberta Cattle for the Orient

Another batch of Alberta beef cattle, three hundred head in all, is expected to leave Vancouver shortly for the new market in Japan.

Many persons have a jaw biting power of 300 pounds.

Appetite Keen and Bowels Relieved

You can relish your meals without fear of upsetting your liver or stomach if you will put your faith in Carter's Little Liver Pills. Foul accumulations that poison the blood are expelled from the bowels and headache, dizziness and sallow skin are relieved. Small Pill—Small Dose—Small Price.

No Secession Talk

Robert Forke Says There Is No More Patriotic Section in Canada Than in the West

Emphatic denial to reports that Western Canada largely favored "secession" was made by Robert Forke, M.P., leader of the Progressive party, in presenting the western viewpoint on the tariff and other matters of national importance before the Young Men's Club of the board of trade at Toronto.

In declaring that Canadians were going to fight out their own problems as one family, Mr. Forke said: "I can assure you that there is no more patriotic section of this country than the west and that this talk of secession has been unwarrantably magnified."

"I have no fault to find with moderate protection for Canadian manufacturers, but I would like to see the government announce a definite policy regarding protection and stand by it, rather than have the tariff subject to constant alterations."

It would be very difficult, said Mr. Forke, to convince the western farmer, who sold his produce and cattle in the open markets of the world, that he stood to gain by protection.

Loyalty To Home Paper

Doubtful If Average Town Has Industry Of Equal Value

The Central Canadian of Carleton Place, Ont., refers to the marked increase in the cost of publishing, and takes its own pay sheets as an illustration. "These, and they are but one item in the production of a newspaper, are over six times higher than they were ten years ago. The C. C. has no clench in this particular, yet in all five towns these industries, and they are nothing less, are carried on greatly to the advantage of the community. And just here it may also be noted that they do so without bonuses or concessions of any kind. They are not given fixed assessments, exemption from taxes, or free light or water, yet go on steadily, paying no inconsiderable wages week after week. They are due wholly to private enterprise and it is doubtful if the average town has other industrial concerns of equal value to the common weal. Home labor forms the pay list and is recompensed by home earnings which are made possible only through the loyalty of home business people to home institutions.—Collingwood Bulletin.

Extend Public Health Programme

Metropolitan Company Gives Fifteen Thousand to Social Hygiene in Canada

The Metropolitan Life Insurance Company of New York through Dr. Lee K. Frankel of their headquarters staff in New York City, has notified Dr. Gordon Bates, the general secretary of the Canadian social hygiene council, that fifteen thousand dollars will be donated during the next twelve months to extend the public health programme of the council in Canada.

The Metropolitan Company has long been famous for its aggressive policy for national education along health lines and for its heavy contributions to such movements as prove themselves effective in the prolongation of the average human life.

At the present time, with this end in view, the Metropolitan Company is spending from three to four million dollars annually on public health activities in Canada and the United States.

Asthma No Longer Dreaded

The dread of renewed attacks from asthma has no hold upon those who have learned to rely upon Dr. J. D. Kellogg's Asthma Remedy. So safe do they feel that complete reliance is placed on this true specific with the certainty that it will always do all that its makers claim. If you have not yet learned how safe you are with this preparation at hand get it today and know for yourself.

Saskatchewan Horses For B.C.

A carload of heavy draft horses was purchased in Saskatchewan recently for prices ranging from \$200 to \$300 per head. Nine hundred dollars was paid to one man for three grade horses; and seven head cost \$1,950, an average of nearly \$280 per head. These horses went to the B.C. lumber woods.

Unfortunate Substitution

By the unfortunate substitution of "n" for "r" in the report of his marriage in a country newspaper, a certain clergyman was styled the "Never-erend Mr."

As it happens, the clergyman in question has a reputation for being long-winded.

New Zealand Blind Are Prosperous

Out of 600 blind people in New Zealand, only 87 have applied for the pension granted by parliament. The explanation is that they are able to make a good living in various ways.

English Firm Gets Contract

Carillon and Clock For Ottawa Will Cost \$65,930

The contract price for the carillon and clock to be installed in the new Victoria Tower on Parliament Hill is \$65,930, according to official announcement made by the department of public work, Ottawa. An order-in-council has been passed awarding the contract to Messrs. Gillett and Johnston, bell founders, of Croydon, England. The carillon will consist of 53 bells. The contract calls for complete installation by March 31, 1926.

NATURE'S WARNINGS

Danger Signals That Everyone Should Take Seriously

Pain is one of Nature's warnings that something is wrong with the body. Indigestion, for instance, is characterized by pains in the stomach, and often about the heart; rheumatism by sharp pains in the limbs and joints; headaches are a sign that the nerves or stomach are out of order. In some ailments such as anaemia, pain is not so prominent. In this case Nature's warning take the form of pallor, breathlessness after slight exertion, palpitation of the heart, and loss of appetite. Whatever form these warnings take, wise people will not ignore the fact that many diseases have their origin in poor blood, and that when the blood is enriched the trouble disappears. Dr. Williams' Pink Pills are most helpful in such cases because they purify and build up the blood to its normal strength. In this way it tones up the nerves, restores the appetite and gives perfect health. Miss Hazel Berndt, of Annapolis, Ont., has proved the great value of this medicine and says:—"I am a young girl and have been working in a factory for the past four years. For two years I had been in such poor health that at times I could not work. I was thin and pale, and troubled with headaches and fainting spells. I doctored nearly all this time, but it did not help me. My mother advised me to take Dr. Williams' Pink Pills, and after using them for a while I could notice an improvement in my condition. I used nine boxes and can truthfully say that my health is restored. When I began taking the pills I weighed 97 pounds and now I weigh 111. I feel that I owe my good health to Dr. Williams' Pink Pills and hope other ailing people will give them a fair trial."

You can get these pills through any medicine dealer or by mail at 50 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

For Those Who Deserved It

The clergyman wrote a sermon roundly upbraiding those who did not come to church on a rainy day. He had heard many a sermon preached upon a rainy day to the brave few who had withstood the elements and who had not needed the lecture. So he saved his for the next sunny, beautiful Sunday and preached it to the fair weather congregation who deserved it!

Find Ancient Tomb

Believed to be of Greater Antiquity Than Tomb of King Tut

King Tut-ankh-amen and all his glory probably will have to take a somewhat less exalted seat at the table of noble antiquities should new discoveries by Egyptologists prove as valuable as expected.

The resting place of another monarch, named Senerefu, older by far than King Tut, is believed to have been found by archaeologists with the Harvard University expedition to the Giza Pyramids in Egypt. Senerefu is of the fourth Egyptian dynasty. He lived between 5,000 and 6,000 years ago, and his reign preceded those of Tut-ankh-amen and Cheops.

Discovery of the tomb followed the sinking of a 150-foot shaft, under the leadership of Allen Rowe, of the expedition. The tomb is most fragile and extreme caution must be exercised in handling it. The task of opening it and preserving its contents will be a long and difficult undertaking.

The tomb is near the great pyramid of Cheops.

The discovery is considered to be more important from an archaeological point of view than the one made by Howard Carter and the late Earl of Carnarvon when they found the tomb of Tut-ankh-amen and its treasures.

Has Isolated the Vitamine

Danish Chemist Claims to Have Made Use in Tablets Possible

The Danish pharmacist, Hallas Moeller is reported to have succeeded in isolating the vitamine, "fat soluble A," in cod liver oil and making it possible to administer vitamine in tablets. By this method of administration it is asserted a quart of cod liver oil will have the same effect as a barrel administered formerly.

Moeller also is said to have prepared vitamine in a mild form suitable for injection in cases where cod liver oil cannot be taken.

The discovery has aroused much interest in scientific circles in Copenhagen.

Return Relic To Canada

The shield which was taken from the gates of old Quebec after the capture of the city by General Wolfe, and is now in possession of the town of Hastings, Eng., will be returned to the Canadian city.

Corns are painful growths. Hollaway's Corn Remover will remove them.

Making Banana Flour

The manufacture of banana flour has been started at Singapore, India. It will be used in the manufacture of chocolate biscuits, cakes, and as a beverage mixed with cocoa and milk.

FLANAGAN BROS. HARDWARE

PHONE 84

GLEICHEN

THE ALBERTA HEN

has her own troubles. She is now a government controlled institution. The pleasant relationship which have existed in the past between the hen and the retailer are cut short, and now all eggs must be bought on grade. The retailer can take eggs but he gets his price that he must pay from the government. He can candle or grade them himself or he can take each farmer's

eggs, keeping each lot entirely separate, and ship to Calgary to be graded and candled. The report of each customer's eggs and check for same will come back direct to the retailer, who will hand same over to customer. Ramsay's will take all the eggs offering, following out the latter idea of shipping to Calgary in individual lots to government and returns guaranteed correct.

WE WILL DO ALL THE WORK THE customers can bring us their eggs as formerly--WE WILL ATTEND TO SHIPPING.

HOUSE WIVES PLEASE REMEMBER:-

1. Keep all small eggs at home you will get very little for them
2. Keep all dirty shelled eggs at home, they will be absolutely refused and the retailer is liable to a fine of \$100 if he takes them.
3. Send eggs as often as possible. Every day eggs decrease in weight and to grade No. 1 they must weight 24 ozs. per dozen.
4. We will have cases for 6, 12 and 15 dozen, so that shipping in small lots will be easy.
5. Thin shelled eggs also grade low. See that hens get plenty of shell.

The hen with the assistance of the farmer who looks after her and her products, can place Alberta on the map as an egg country. Cutting out the loose way of marketing, which has been going on in the past, is a good idea. The retailers have lost many a good dollar by buying eggs at random and selling to grade experts, who bought on grade only. Every case of eggs shipped by retailers in past seasons brought back a report of from three to five grades, and a loss to the storekeeper of from 5 to 8 cents a dozen.

Let's get together on this egg deal. The women who look after the eggs must do their part. Sending inferior eggs cost them money which in this case they have to stand.

We will do our share to help out, it means a lot of extra work. But we will keep our eye on the housewives cheque when it comes back and see that she gets some of the Ramsay's Ltd. good values in exchange. That shall be our reward.

While hens are laying Ramsay's are busy distributing our new spring stock all over our district.

Our spring slogan--"Goods priced close, an ordinary profit, quick turnover." That sells our goods and the public know it, and we are getting some good advertising these days that does not appear in print.

Sole agents famous HEADLIGHT OVERALLS and largest distributors of G.W.G. CO. SHIRTS AND O'HAULS, also Slater shoes and Columbus Rubbers.
